

Model A Ford MECHANICS HANDBOOK

Vol. III

A COMPLETE GUIDE
FOR INSTALLATION AND ASSEMBLY

INSTALLATION PROCEDURES FOR BODY WOOD, ALL ACCESSORIES,
HYDRAULIC BRAKE SYSTEM AND ALL AFTERMARKET PRODUCTS

Les Andrews

CONTENTS

SECTION 1

Improving Speed, Power, and Performance

Introduction	1-1
Standard Model A Performance	1-2
Bolt-On Power and Performance	1-3
Increasing Engine Compression	1-3
Installing High Compression Head	1-4
Improved Ignition System	1-6
Electronic Ignition	1-7
Installing Electronic Ignition	1-8
Alternator Electrical System	1-16
Building A Touring Engine	1-19
Improved Camshaft Lift/Duration	1-20
Valve Spring Compression	1-20
Camshaft Thrust Spring	1-21
Counterweighted Crankshaft	1-21
Lightened Flywheel	1-22
Flywheel Weight Reduction	1-22
Flywheel Mounting	1-24
Added Performance-Long Range Tour ..	1-26
Reducing Vibrations	1-28
Engine Vibrations	1-28
Drive Shaft Vibrations	1-33
Motor Mounts Reduce Vibrations	1-33
Rear Motor Mounts	1-33
Front Motor Mounts	1-34
Degreeing Model A Engine	1-36
Camshaft Specifications	1-37
Degree Testing Requirements	1-38
Degreeing Procedures	1-39
Cylinder #1 T.D.C.	1-39
Crank Indexing	1-40
Camshaft Positioned to Crankshaft ...	1-40
Cam Lobe Phase	1-41
Valve Lift	1-42
Valve Duration	1-42
Valve Timing (Open/Close)	1-43
Valve Timing Wheel	1-43

SECTION 2

Installing Hydraulic Brakes

Introduction	2-1
Understanding Hydraulic System	2-2
Dual Master Cylinder	2-3
Required Parts	2-6
Planning and Preparation	2-10
Modifying Front Backing Plates	2-11
Modifying Rear Backing Plates	2-13
Modifying Rear Brake Drums	2-16
Mounting Front Backing Plates/Drums ..	2-17
Mounting Rear Backing Plates/Drums ...	2-19
Mounting Backing Plates	2-19
Installing Brake Shoes	2-21
Installing Emergency Brake Linkage .	2-22
Installing New Pedal Bushings	2-24
Installing Master Cylinder	2-25
Master Cylinder Options	2-27
Hydraulic Brake Line Routing	2-30
Cutting and Flaring Tubing	2-30
Brake Line Routing	2-32
Bleeding Hydraulic System	2-35
Adjusting Brakes	2-36

SECTION 3

Installing Top Wood

Introduction	3-1
1928/29 Pickup Top Wood	3-3
1930-31 Pickup Top Wood	3-13
1928/29 Tudor Front Header	3-25
1930/31 Tudor Front Header	3-33
1928/29 Tudor Top Wood	3-39
1930/31 Tudor Top Wood	3-59
1930/31 Coupe Front Header	3-88
1930/31 Coupe Top Wood	3-89
1930/31 Coupe Body Wood	3-107

CONTENTS (Continued)

SECTION 4 INSTALLING ADDITIONS AND ACCESSORIES

6 Volt to 12 Volt Conversion	4-2	Overdrive-Borg Warner Installation	4-51
12 Volt Horn Resistor	4-9	Overdrive-Mitchell Installation	4-62
Added Ground Cable	4-10	Pitman Arm Shortened	4-71
Alternator Installation	4-11	Pitman/Spindle Arm Balls Replaced ...	4-72
Battery Disconnect Switch	4-13	Radio (CB) Installation	4-73
Brake Floaters Installed	4-15	Rear Window Stop Light	4-76
Cast Iron Drums Installed	4-17	Seal Beam Headlights	4-78
Cowl Lights Installed	4-19	Seat Belts Installation	4-80
Diode Cutout Assembly	4-22	Tachometer	4-84
Dome Light Wiring	4-24	Timing Pointer & Strobe Light Timing ..	4-86
Drum Reinforcing Bands	4-26	Trunk to Rumble Seat Conversion	4-88
Electronic Ignition	4-27	Tube Shock Installation	4-94
Fender Well Installation	4-36	Turn Signals	4-98
Fuse Block	4-40	Water Temp Gauge	4-102
Halogen Headlights	4-41	Frame Straightening	4-104
Mallory Distributor	4-43	Hood Alignment	4-108
Modern Points	4-46	Parts Interchangeability	4-114
Modern Starter Drive	4-49
